Tuesday 11th March 2009.

Dear Member,

Below is a copy of the Boatman's, new working hours as from 22nd March 2009.

If you require work to be done, or launch & retrieval outside these times, it will have to be by mutual arrangement between yourself and the Boatman. The association will not fund these out of hour's activities.

The Boatman's Official days off are Tuesday and Wednesday. Work by the Boatman on private boats will be charged by the Association. Before commencement of work, a figure must be agreed by both parties to include all labour and materials.

When the boatman is not on duty and whilst the clubhouse is open, the yard and locker room will be available, club tools however will not be available.

Apart from in an emergency when the club flag on the main beach winch house is down you CANNOT come ashore. (Especially during lunch breaks), unless you have completed the winch house operation and safety procedures. In an Emergency you can ring the boatman on 07760 100200 or the club on 01323 723442,
